Profile

State Engineer blending creative problem-solving with teamwork, focused on delivering impactful, efficient, and sustainable solutions.

Experience

Automation Engineer, L'Agence WL (Contract) Automated business workflows for a client, improving operational efficiency and reducing manual processes. Contributed to the development of a web application as part of a cross-functional development team	03/2026 – 04/2026 Quebec, Canada
AI Engineer, CYBERGENIX Led development of XMIND, a multi-agent AI system automating the full software development lifecycle, optimizing LLM performance without GPU infrastructure. Created custom MCP servers for seamless integration with enterprise tools, published on NPM and PyPI, enabling junior developers to achieve senior-level productivity within CyberGenix workflows	03/2025 – Present Saint-Etienne
Generative AI Specialist, GEOAP I developed an AI chatbot using LLAMA 3 to serve as a hydroclimatic site assistant. The chatbot interprets user prompts to deliver actionable insights on hydroclimatic data, enhancing user interaction and decision-making by 30%	08/2024 – 10/2024 Rabat
Junior Software Engineer, Keiken Digital Solutions Contributing to the development of a blueprint for deploying an e-commerce platform based on Salesforce B2C. Led 3 Agile sprints using Jira, increasing project completion speed by 20% in the remote workplace, refining my collaborative project management skills	04/2023 – 09/2023 Paris
Full-Stack Developer, Yanvision During my professional internship, I excelled as a Full-Stack Developer, focusing on API development. I gained expertise in Django with Python, utilizing Wagtail for content management, designed and deployed interactive interfaces using Next.js	04/2022 – 09/2022 Casablanca
Initiation Internship, Orange Expanded a solid understanding of product life cycles and processes within the Services and Information Systems Department. Gained experience in project planning and management using software management tools like Trello to streamline workflows	06/2021 – 07/2021 Sidi Maarouf, Casablanca

Education

Software Engineering Diploma, EMSI Computer methods applied to business management	2023 – 2025 Marrakech
--	--------------------------

Professional Licentiate Degree , <i>Superior School of technology</i> Artificial Intelligence and Data Sciences	2022 – 2023 Meknès
Technical University Degree , <i>Superior School of technology</i> Software Engineering	2020 – 2022 Salé
Graduate from High School , <i>General El Kettani High School</i> International Physical Sciences French option	2019 – 2020 Berrechid

TECH SKILLS

Prompt Engineering Craft optimized prompts on GPT, Claude, LLama, Gemini, Mistral, Kimi,...	Devops Git, CD/CI Pipeline, Linux, Releases, Deployments, Terraform, Ansible...
Virtualization Docker & Kubernetes, Proxmox, Prometheus, Grafana	Web Development Django, Spring, FastAPI, ReactJs, NextJs, Angular, NoSql, Supabase, Stripe API, ASP.Net Core...
AI LLM, Neural networks, Machine learning, Agno, MLOps, RAG, Stable Diffusion...	Automation N8N, Zapier, MCP, A2A, Elevenlabs, LangChain...
Data Kafka, ELK, Spark, PowerBI, R, Jupyter...	CMS Development Salesforce, Odoo, WordPress, Hubspot, Monday, Zoho...

Personal Skills

Leadership, Communication, Emotional Intelligence, Critical Thinking, Time Management, Persistence

Languages

Arabic	English	French	German
Native	C2	C1/C2	A1/A2

Certifications

Computer Science (CS50) Issuer: XHarvard	Autonomous Database Cloud Issuer: Oracle	Generative AI Specialist Issuer: Google Cloud
